JOB LISTING

Gregory Colston Architect, PLLC is seeking an intern to join its team working directly with firm's Founder and Principal. Great opportunity to work at this busy, growing boutique firm located in the East Village. Projects include high end loft renovations, full brownstone renovations, galleries, office spaces and hospitality. We are looking for a team player who has the talent and flexibility to work on multiple projects across various design phases to meet project deadlines.

Responsibilities will include preparing presentation for clients, contractors and Department of Buildings, preparing plan sets and liaising with Department of Buildings, building office library and assisting Founder on various project tasks. Individual should be highly motivated, organized, creative, have the ability to multitask, and understand all phases of design and construction.

Job Description:

Position is for an Architectural intern with experience in the design and construction process. Candidate should have construction document and administration experience, and be AutoCAD proficient.

Work may include modeling for digital fabrication of various products and installations. Other software capabilities such as Revit, Photoshop, Illustrator and other graphic programs are helpful. Good work ethic and sense of humor a plus. Strong interest in being part of a growing firm.

Please submit selected examples of your work including presentation drawings and construction documents along with resume to admin@gcolston.com. Please do not send entire portfolios. Current relevant projects include a brownstone renovation and a penthouse addition. Compensation commensurate with experience.
